COMPANY PROFILE

JR DRILLING & BLASTING

Specialising in Civil and Quarry Drilling and Blasting

JR DRILLING & BLASTING
CIVIL AND QUARRY

THE COMPANY

JR Drilling and Blasting is a privately owned South African company that was established in 2023 with the objective of expanding the flagship construction business in the Southern Africa region, with 15 years experience and sound skill.

Our focus is providing reliable and high-quality services that our customers have come to depend on, while also maintaining the trust they have placed in us.

As a 100% black-managed organization, we take pride in our BEE Level 1 status, which includes a black female director, Mrs. Shumorne Yolanda Jonck, who brings her valuable skills and expertise to the organization.

At JR Drilling and Blasting, we specialize in providing drilling and blasting services to the quarry and civil construction industries in South Africa.

Our services are tailored to meet the unique requirements of each project, with a commitment to safety and quality at all times.

VISION & MISSION

OUR VISION

Our company aspires to revolutionize the industry and establish itself as a global leader, recognized for our innovative approaches, exceptional standards, and unparalleled outcomes. Our aim is not to be a mere local success story but to extend our influence worldwide.

To achieve this feat, we remain committed to our core values of excellence, integrity, and client satisfaction.

Our primary focus is to provide unparalleled services, foster a team of talented and dedicated professionals, and establish long-term relationships with our clients. By pursuing this vision, we are confident that we can become a go-to source for consulting expertise, both locally and nationally, and leave a lasting impact on the world.

OUR MISSION

- Our commitment is to deliver professional and high-quality results without compromising the turnaround time.
- We strive to implement best practices that benefit our clients, employees, and the environment.
- Our measurement and quality checks adhere to international standards when conducting blast monitoring.
- We aim to create job opportunities and contribute to the development of the South African economy in alignment with the Industrial Policy Action Plan II (IPAP 2) and the New Growth Path.

COMPANY VALUES

OUR VALUES

At our company, we prioritize putting the customer first and providing exceptional service that exceeds expectations and fosters long-lasting relationships.

As tech innovators, we are committed to pioneering the latest technology and staying ahead of the curve to deliver cutting-edge solutions to our clients.

Our team of experts upholds the highest levels of professionalism in everything we do, from communication to project execution.

We operate with honesty, transparency, and ethical conduct, building trust with our clients and earning a reputation for unwavering integrity.

AIMS & OBJECTIVES

- Our objectives are as follows:
- To encourage the social community's participation in self-improvement initiatives.
- To proactively facilitate the development of skills and knowledge among both the social community and younger generations.
- To reduce poverty by creating employment opportunities and promoting overall economic growth.

WHAT WE DO

OUR SERVICES

JR Drilling and Blasting is a specialized company that excels in the precise application of explosives for surface mining operations. The company utilizes advanced drilling and blasting techniques to extract minerals from the ground with exceptional efficiency.

We offer technical services to assist clients in enhancing their blasting operations. The range of services provided includes Blast Audits, Blasting Optimization, Blast Designs, Charging up Units Management, and Maintenance.

We also provide environmental blasting services that comprise Blast Assessments, Blast Monitoring Systems, and Fragmentation Analysis. These services enable clients to mitigate and minimize the environmental impact of their mining operations.

QUALITY & SAFETY

We consider safety and accuracy to be the fundamental pillars of a successful blast. As such, they are non-negotiable components of every project. We adhere strictly to a comprehensive Health and Safety plan and ensure that all projects are executed in strict compliance with relevant regulations.

Trust is integral to any business endeavor, and we have successfully established it across the industry with zero incident claims under our belt.

Our company is resolute in its commitment to improving safety performance continually. To achieve this goal, we implement and maintain standard safety procedures on every work site.
